The Strategic Objective Map of the Society Integration Foundation for 2022-2024 is a document that sets out the priorities, lines of action, objectives to be achieved, tasks to be carried out in all areas of competence of the Society Integration Foundation, to be implemented within the available funding.

A number of policy planning documents developed at the national and sectoral levels, as well as recommendations from sectoral advisory councils, were taken into account in the identification of the objectives and performance of the Society Integration Foundation's 2022-2024 Strategy, which forms the basis and determines further actions for the development of a cohesive society and non-governmental organisations in the coming years. The priorities and tasks set out in it will be taken into account in the future in the preparation of the annual work plan of the Society Integration Foundation.
